

ZOOLZ INTELLIGENT CLOUD

Product Datasheet

Zoolz Intelligent is **the future of cloud storage**

Upload any file and our technology will structure the files without you having to lift a finger. Think of it as a search engine for your data. And, like a search engine, you can find any file in a quick and secure way, allowing you to concentrate on what really matters; your business.

How it Works

1. Sign up

Enter your details and register with Zoolz.

2. Configure

Download the setup and you're done. Alternatively, you can add users, create backup policies, set user privileges, and deploy the backup software to users for automatic protection.

3. Back up

Zoolz automatically uploads all data from computers, servers, mobile and devices. All data is secured with military-grade encryption.

4. Analyse

Any file uploaded is analysed, processed and indexed for intelligent discovery.

5. Discover

Discover your big data just like a search engine - quick and secure. In just a few clicks, you can get relevant results in near-real time, meaning you can focus on your business.

FEATURES

- Instantly search all your content
- Discover scanned documents with OCR technology
- Stream videos
- Automatic backups
- Global language support - 22 languages

Why Zoolz Intelligent?

Video Preview

View your content the way it was intended - with no interruptions. Stream any video instantly no matter the file size. You can also benefit from fast-track previews. Simply stream and share on-demand from one integrated solution. Say goodbye to long email chains.

Media Discovery

Searching for files can take precious time from your workflows. Our technology gives you the freedom to discover your files by quality, camera type, location, date, size and footage length. You can even search by dominant colour in photographs.

Mobile Access

The ability to watch and share media projects on-the-go is essential for all media companies nowadays. With Zoolz Intelligent, you can be productive from any location and securely view and share any piece of content, whether it be a press release, a final mix or a video trailer.

Reduce Costs

Our top priority is to save you money, whilst keeping your valuable photographic data assets safe, secure and accessible. Zoolz Intelligent eliminates the need for costly IT resources such as on-premise over-priced storage equipment. You'll only need pay for the on-demand secure storage you need.

Automatic Protection

With our automatic protection feature, we've made it easier to backup any new or amended file. All you have to do is upload the data and we'll do the rest.

Complete Audit Log

This tamper-proof solution will allow you to track all data searches, file changes, shares and deletions, right down to the time and source of the action.

Unified Cloud

All data located on computers, mobile devices, external drives, servers, network devices and services like Dropbox, are imported into Zoolz for safekeeping and discovery.
